

CC-SERIES BUOY

Polyform's CC-Series buoys have the same legendary history as our A-Series buoys. Developed shortly after the A-Series, the CC has been proven to be a valuable commercial buoy for over 40 years. Because of the flexible center tube, you will see the CC buoy used in a variety of applications. They are used by longliners, fish farmers to add buoyancy to their pens, and more recently by geophysical researchers to tow sonic cannons in search of gas and oil. People who use Polyform's CC buoys, can count on reliable performance, even in the most extreme conditions.

FEATURES: Polyform's unique vinyl valve system. Even wall thickness for maximum thickness. Reinforced flexible center tube.
Useful in a variety of applications: Offshore fishing, Oceanic research equipment, Fish farming, Mooring buoy
